

# COLUMBIA, S. C.

Friday Morning, August 6, 1869.

**CUFFEE OWNS SOUTH CAROLINA.**—It is currently reported that a colored Senator recently told a large assembly of his constituents (blacks): "The white people say they are going to bring coolies and white emigrants to this country. But this country is ours; we've got the Legislature, and we won't allow it—and we won't. We'll put the white men ten feet under ground, and as to the coolies, we'll put them twenty feet."

The New York World, in commenting on the sudden popularity of enfranchisement of the "white folk" of the South, expresses the following very decided opinion: "The anomaly of keeping down the superior race is a failure, after five years of Congress and the army to bolster it up. This is the abandonment of reconstruction. Its key-stone was white disfranchisement. That pulled out, the whole arch falls. It has fallen, and will soon be buried out of sight."

**FLYING MACHINES.**—If we may believe the current reports, they have a flying machine in San Francisco, which will make the airy voyage from that city to New York in twenty-four hours. In these days of multitudinous and multifarious invention, it is hardly safe to express a doubt of the practical chances of any machine whatever; and when the San Francisco Highflyer has arrived in New York, we promise to celebrate it in heroic verse, and still more heroic prose. We already begin to feel a sort of contempt for the attraction of gravitation, aerial currents, atmospheric pressure, and the fusty old laws of nature, which have heretofore been deemed omnipotent. Only it would be rather more satisfactory if we could see the machine. The San Francisco papers say the experimental trips were successful, and that a machine 150 feet long is being built.

Border law has in all times and countries been understood to be a very one-sided sort of law—very good for those who live on the right side of the line, very bad for all others. It flourished especially in those rude ages when enemy and stranger were described by the same word, and has its counterpart in the disposition which is said at this day, in some of the remote districts of England, upon the appearance of a stranger, to prompt the exclamation, "Punch his head." The latest illustration of this spirit of frontier justice, combined with prejudice of color and race, is furnished by telegraph from Kansas. Two persons near Fort Benton were fired upon by Indians and one of them wounded. The occurrence being reported in town, so incensed the citizens that they straightway took three Indians, who happened to be in town at the time, having come in for the purpose of trading, and hung them out of hand—thus most illogically punishing, as a cotemporary observes, for the outrage committed, "the only three Indians who by no possibility could have had a hand in it." This is the law of retaliation, pushed to an unwarrantable extreme. The same cotemporary remarks, that whatever truth there may be in the frontier saying that "there are no good Indians but dead Indians," it would not take many occurrences of the kind to justify the opinion that there are no good white frontiersmen at all. If this is border law, we are afraid the Friends who have the interests of the Indians in hand will be under the necessity of applying to the General Government to protect their charges against the white man's justice.

**A CONGRESSIONAL CANDIDATE SHOT AND FATAUALLY WOUNDED.**—A dispatch to the *Republican Banner*, dated Courtland, Ala., August 2, says:

"About 2 o'clock this afternoon, while Dr. Haughey, Conservative Republican candidate for Congress, was on the stand delivering a speech, he said all the Hinds speakers were hirelings. Hinds represents the extreme Radical wing of the Republican party, and is also a congressional candidate. Dr. Collins, a friend of Hinds, called him a d—d liar, at the same time advancing toward him. Haughey returned the belligerent epithet, when both clenched. During the struggle, Haughey was shot in the left breast, just under the ninth rib. The wound will prove fatal. Hinds and Collins are both carpet-baggers. Collins is the man who killed Kornehan at Tusculum some time since, and is a perfect desperado."

**SHOOTING AFFRAY.**—Last Monday evening, while Wm. J. Smith and Hiram McAbee, Jr., were on their way home from this place, a difficulty occurred between them which resulted in the shooting of McAbee by Smith. Two shots were fired, but the first missed. The second entered the mouth of McAbee, which inflicted a painful wound by the breaking of the jaw-bone.

General J. B. Kershaw, delivered an address before the Greenville Literary Club, on Tuesday evening last.

**A DISGRACEFUL CASE.**—The somewhat celebrated case of Bullock, Blodgett & Co. vs. E. H. Pugh, which has caused considerable curiosity among our city readers, was before Judge Gibson all day yesterday. The counsel of Pugh filed a plea denying that the presses, fixtures, types and good will of the *Daily Press* were a part of the partnership assets, and insisting that the issue made by the plea should be submitted to a jury at this (the appearance) term. This was resisted by the complainants' counsel, and after a long and exhaustive argument the Court decided that the facts put in issue by the plea must be decided upon the hearing of the bill and answer at the regular trial term. The counsel for Pugh then moved for a dissolution of the injunction upon the coming in of the answer, swearing off all the equity of the bill. To sustain the allegations of the answer, affidavits of Beard and Hale, both colored, were read. Both of these negroes swore that they were large stockholders in the *Loyal Georgian* concern—Beard that he owned \$1,000 of the stock—and Hale that he was the largest stockholder, though he could not say definitely how large his interest was.

Affidavits in support of the charges of the bill were read, made by Bullock, Bryan, Conley, Blodgett, Bowles, Prince and Rice. These affidavits not only re-affirmed all the charges in the bill, but contained new and important facts, and made astounding disclosures of the workings of the so-called Georgia printing concern. Pugh rejoined with a lengthy affidavit, in which he took plain and distinct issue with the statements in the affidavits of Bullock, Blodgett & Co. The contradictions in matters of fact were of such a character as to preclude the idea that they were mere honest differences of opinion. There was not an individual in the court-room who was not fully satisfied that perjury was committed by one side or the other.

**SOUTHERN SECURITIES IN NEW YORK.**—The *Herald*, of Monday, in its financial review, makes the following report of the market for Southern securities:

Southern securities were generally heavy and dull. The recent violent fluctuations in the Tennessees and North Carolinas, supposed to result from the manipulation of State officials, have driven investment seekers to other and more reliable securities. The North Carolinas and Tennessees were better towards the close of the week, but only from what is regarded as a change in the speculative tactics of the aforesaid officials. The South Carolinas were weaker also through an apprehension that the State is falling into the danger of lending assistance to certain railroad enterprises. The following were the closing prices of the Southern list on Saturday evening: Tennessees, ex-coupon, 63@63½; do. new, 56½@57; Virginias, ex-coupon, 58½@59; do. new, 61@61½; Georgia sixes, 85@85½; do. sevens, 91½@92; North Carolinas, ex-coupon, 57@57½; do. new, 51½@52; Louisiana sixes, 69½@70; Alabama eights, 93½@94; do. fives, 64@65; do. sixes, sterling, 90@91; South Carolina sixes, 64@65; do. new, 62@63½; do. regular stock, 64@65; Memphis and Charleston, first, 85@86; do. second, 74@75; do. stock, 45@47; Greenville and Columbia Railroad, guaranteed, 67@69.

**DEATH OF MANSON JOLLY.**—This news will be received with regret by the many friends of this bold and daring Confederate soldier. We learn that a private letter has been received stating that Manson Jolly was drowned on the 8th of July, near his home in Texas. He was building a residence on the opposite side of the creek from where he lived, and had crossed over on horseback several times during the day. The stream was greatly swollen, and in attempting to cross for the third or fourth time, he was carried, with his horse, down the creek, and in the struggle which ensued, both were drowned. Mr. Jolly had been married about one year, and leaves a young wife, the daughter of a former citizen of Anderson.

The thrilling exploits and adventures of Manson Jolly in this section of the country, immediately after the war closed, are fresh in the recollection of all. His name was a terror, for a long time, to the garrison of United States soldiers—especially the volunteer white and colored regiments—stationed at this place. When the regular troops arrived, he removed to Texas, where he has since been leading a quiet and peaceful life.

**HOUSE BURNED IN THE COUNTRY.**—We regret to learn that the large and valuable house of Mr. E. N. Coleman, situated ten miles above Greenville, was entirely consumed by fire, on Thursday, 22d ult. The conflagration broke out about 3 o'clock in the morning, consuming nearly everything with the building, with the exception of a few articles of household furniture, also kitchen and smoke house; the house was two stories high. Mr. Coleman was absent at the time, and this great calamity deprives him of nearly everything he possessed. The house was well supplied with furniture. The fire is supposed to be the work of a disaffected negro man, in the neighborhood, for whom Mr. Coleman, who is a Magistrate, had issued a warrant. It is to be hoped that he will be brought to proper punishment. —*Greenville Enterprise*.

A terrible accident occurred near Scrubgrass, in the oil regions of Pennsylvania, on Friday. George B. Feltman had charge of an engine, and used nitro-glycerine instead of lard oil in oiling the machinery. The result was a tremendous explosion, tearing Feltman's body into atoms, and fatally injuring James Feltman. Another workman, John Foy, was severely hurt.

The post office formerly at Traveler's Rest, has been re-established. Miss Elizabeth Coleman has been appointed postmistress.

**THE KENTUCKY ELECTION.**—The election which occurred yesterday involved nothing which could awaken public interest. The choice of members of the Legislature was made without political excitement, and the contests for seats in that body were generally between candidates professing the same faith and adhering to the same party. Some days must elapse before the exact result of the small vote polled can be known. In the meantime our friends abroad may rest assured that there will not be more than a baker's dozen of radicals in our next General Assembly. No other significance attaches to the election in this State which has just passed off so quietly. [Louisville Courier-Journal, 3d.]

The Philadelphia *Age* well says that there are now more important movements projected or in progress intended to benefit the trade relations of the world than at any other period in its history. The Pacific Railroad is finished; the Suez Canal is rapidly approaching that point; the tunnel under the Alps is progressing in a favorable manner; a new line of ocean telegraph has just been stretched from France to the United States; an American company has been started to connect all the leading cities in China by means of the word-speaking wires, and a ship channel is in contemplation across the Isthmus of Darien, by means of which vessels can pass backward and forward from the Atlantic.

**THE ANDERSON HOTEL.**—Under the management of our old friend, Colonel A. M. Hunt, this hotel is now open to visitors, and on Monday last a goodly number of persons met around the hospitable board to commemorate the opening. With every facility to render guests comfortable and happy, and with a reputation to sustain a second to no man in the State as a kind genial host, Colonel Hunt will afford to visitors the best possible accommodations for the most reasonable terms. —*Anderson Intelligencer*.

**NEW ISSUE OF GREENBACKS.**—In consequence of the serious issue of the ten dollar greenbacks, or legal tender notes, Secretary Boutwell has concluded to have a new issue of all denominations of greenbacks from one to the thousand dollar note. The plates for these notes are now being engraved at the Bureau of Engraving and Printing. The designs are entirely new, and no likeness of any living man will be placed on any note.

Another cable is soon to be laid. A company in London propose to lay a line from Scotland by way of the Orkney and Faroe Islands to Quebec, and it is announced that, as soon as completed, the Post Office Department will purchase it.

Two convicts in the Auburn, N. Y., prison fought a duel according to the regular code on Friday morning. The weapons were knives and the scene was the ice house. Both men were wounded, but not dangerously.

As Mr. William Oldshue, of Aberdeen, Miss., was returning from Prairie State, mounted on an elegant young mare, riding in a gentle lope, the animal trod upon a rail that flew up, struck her in the breast, killing her almost instantly.

A white man, named William Pierce, has been swindling the negroes of Richmond by pretending to initiate them into the secrets of Masonry, at \$12 a head. He has been arrested.

The Newberry *Herald* announces the death by drowning of Mr. Renben Ruff, only son of Dr. P. B. Ruff, of that place. He was drowned on the 12th instant, whilst engaged in rafting on one of the Western rivers.

Peter Kerr, of the firm of J. & J. Clark & Co., manufacturers of spool cotton, while bathing on the 4th at Long Branch, was suddenly taken with cramps, and drowned.

The Keowee *Courier* says the citizens of that County have been generally successful in their applications for a reduction of the assessment made of their property.

Deputy Sheriff Gregg, who was wounded at the anti-riot riots in New York State lately, died yesterday, at Albany.

The village of Moore's Flat, Nevada County, California, was destroyed by fire July 31. Loss—\$100,000.

Henrietta Nichols, the oldest colored woman in Maryland, died on Sunday, aged 110 years.

Major J. H. Webber, a highly respectable citizen of Spartanburg, is dead.

**NIL DESPERANDUM, HOPE!**—Hundreds of cases of Scrofula, in its worst stages, old cases of Syphilis that have defied the skill of eminent Physicians, Rheumatism who have been sufferers for years, and the victims of the injudicious use of Mercury, have been radically cured by Dr. TUTT'S SARSAPARILLA AND QUEEN'S DELIGHT. It is the most powerful alterative and blood purifier known. It is prescribed by very many Physicians. 331 6

**OBITUARY.**

Died, in Spartanburg, on the 29th July, 1869, MARY ELTA, infant daughter of W. R. and Mary E. Cathcart, aged 9 months and 29 days.

Again has the Angel of Death been commissioned to bear from a happy family its household treasure—last year an only son, this year an only daughter. Willie, the first born, his father's image and mother's joy, the pride and pet of the house, the delight of all, shed his beauty and loveliness around but for a season; twelve moons had scarcely waxed and waned; when his gentle spirit took its flight to that better land, leaving behind a little sister of lovely mould to cheer the hearts of his devoted parents.

Daring Mary Elta, thy sweet presence, a precursor of joy and sadness, thy winsome smile and guileless ways turned thy parents' first deep grief to joy; and again thou leavest them in sadness for thyself. We would fain have kept thee with us, but death had brighter things in store for thee. Thou art gone to rejoin thy angel brother. With him watch over thy parents here below, and be the stars to guide their way to Heaven.

"Early, bright, transient, chaste as morning dew, She sparkled, was exhaled, and went to Heaven."

**For the Barbecue.**

**The New Theory of Health**

ESTABLISHED BY

**HEINITSH'S QUEEN'S DELIGHT!**

THE Life of all Flesh is Blood. The Health of Life is purity of Blood. Without purity of Blood, no Flesh can be free from disease.

**HEINITSH'S QUEEN'S DELIGHT**

is now a recognized household medicine of remarkable remedial powers, invented and compounded by the Proprietor, which he has called by the euphonious sobriquet

**"QUEEN'S DELIGHT."**

ITS CONSTITUENT PROPERTIES.

QUEEN'S DELIGHT is an alterative, producing a gradual change in the functions of organs, as to permit a healthy action to take the place of disease.

QUEEN'S DELIGHT is a deobstruent, by its diversified action, removing obstructions, reduces inflammation and enlargement of the glands and viscera.

QUEEN'S DELIGHT is an invigorant and tonic; it produces a gentle and permanent excitement of all the vital actions observable in the functions of organic life; and is, therefore, admissible in diseases of the Stomach, Liver and organs of digestion.

QUEEN'S DELIGHT is a stimulating, alterative, diaphoretic, promoting perspiration, removing humors in the blood, producing a healthy action of the skin, removes Boils, Pimples, Blotches and Cutaneous eruptions.

QUEEN'S DELIGHT is a purgative, gently acting upon the bowels, thereby removing effluvia, producing a healthy feeling of the stomach and head. Headache and nervous disorders are cured by its use.

QUEEN'S DELIGHT is an expectorant, increasing the mucous secretion from the mucous membrane of the air cells, and passages of the lungs, or assists its discharge; is, therefore, a remedy, combined with Cod Liver Oil, in all cases of Consumption, Colds, &c.

The high appreciation in which it is held by the profession and the golden opinions of the people, and their many testimonials, will make it a desirable medicine for Druggists to keep constantly on hand.

The sick, feeble and those in delicate health, and all persons living in warm climates, and all unacclimated, will find the

**THE SOUTHERN PRESBYTERIAN REVIEW.** This neatly printed quarterly, for July, has just been issued. The following is the contents: Doctrinal Preaching, Life Insurance, Is Baptism Immersion, The Transfiguration, An Efficient Ministry, The General Assembly of 1869, Critical Notices.

**JOB OFFICE.**—The *Phoenix* Job Office is prepared to execute every style of printing, from visiting and business cards to pamphlets and books. With ample material and first-class workmen, satisfaction is guaranteed to all. If our work does not come up to contract, we make no charge. With this understanding our business men have no excuse for sending work North.

**INQUEST.**—Coroner Thompson held an inquest, yesterday, upon the body of Preston Brooks, colored, (whose death was noticed in the *PHOENIX*), and after hearing the evidence of witnesses and a post mortem of the body by Dr. W. P. Geiger, the jury returned a verdict: "That Preston Brooks came to his death, on the 4th day of August, 1869, near Frost's Mills, from the effects of a blow or blows inflicted on his head and fracturing his skull, by one William W. Marshall, with a stick of pine wood."

Marshall was arrested on Wednesday night, by Constable Minort, colored, and committed to jail to await his trial.

**THE MONTHLY AGRICULTURAL REPORT.** The monthly report of the Department of Agriculture for July has just been printed at the Government printing office. The present number embraces a condensed statement of the condition of the growing crops, together with a variety of extracts from the correspondence of the department, a table showing the imports for three-quarters of the last fiscal year, an article on chemical manures, meteorological tables and notes on the weather for June, and minor items from various sources, compiled by J. H. Dodge, Esq., the statistician of the department.

Notwithstanding the heavy rains and the low temperature, the reports concerning the wheat crop are generally favorable, Kentucky, West Virginia and Virginia producing the best average crop, while in Wisconsin and several North-western States the crop is considerably below the average. The prospect for the corn crop on the 1st of July was fully up to the general average. The same can be said of the rye crop. In this crop, Delaware and Nebraska stand foremost. The oat crop is reported fine, especially in Florida, Texas, Kansas and Nebraska, which produce twenty per cent. above the average yield, while in all except Kentucky the crop is reported as an average one. The other crops all look favorable, especially potatoes, which promise an abundant yield.

The fruit crop is a little below the average in New England and New York and the Southern States, and above the average in the middle and most of the Western States.

**THE TOTAL ECLIPSE OF THE SUN.**—Tomorrow afternoon will occur the total eclipse of the sun, the only one since 1834 that has been visible in any extended portion of the country, and the last one that will be seen during the century. In ancient days such a phenomena inspired wide-spread terror among the ignorant heathens, and they viewed it with the most fearful apprehensions. Now science points out unerringly the very moment of its appearance in every part of the world where the interposition of the moon between the sun and earth will cast a shadow upon the planet which we inhabit, and traces exactly the belt of country where the light of the sun will be utterly obscured and the eclipse will be total. The path of the eclipse over the earth's surface—that is, where it will be total—will begin in the North-east part of Asia, passing up Behring's Strait, thence South-easterly over Sitka, Des Moines, Iowa, Louisville, Kentucky, Abingdon, Virginia, Raleigh, Goldsboro and Newbern, North Carolina; and ending in the Atlantic off the North Carolina coast. All along this line there will be points of observation, where distinguished scientists and astronomers will be stationed with all the necessary instruments and appliances for observations. The Government sends out several of these parties, while private enterprise is also busy. The eclipse, it is thought, will be visible in Columbia about 5 o'clock p. m. The following is given as the best means of observing the eclipse, in the absence of instruments: "Take a large card with a small round hole in the centre, and hold it against the sun's rays, so that the shadow will fall on the floor, pavement, wall or other dark and smooth surface. In the middle of the shadow there will be a true image of the sun, and the eclipse can be studied in its progress without straining the eyes and without smutting the face or hands with smoked glass."

"This simple process was suggested by the familiar circumstance, that the light spots in the shadows, during a solar eclipse, take the shape of the luminous portions of the sun's disc; and the perforated card has been used with perfect success."

**CAUGHT.**—The horse thief who stole Mr. Dent's horse and wagon, near Columbia, was arrested yesterday, near Liberty Hill, by Richard Hogan, and lodged in the jail at this place. [Windsboro News.]

**THE SCIENCE OF HEALTH AND THE ART OF HEALING.**—HEINITSH'S CELEBRATED QUEEN'S DELIGHT puts every man in possession of the means of improving his own health. Disorders of the Stomach, Liver and Bowels are very numerous. The Stomach is the great centre which influences the health or disease of the system—abused, debilitated by excess, indigestion, offensive breath and physical prostration are the natural consequences; allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by costiveness, diarrhoea and dysentery. The great power of the HEINITSH MEDICINE is on the Stomach. The Liver, Lungs, Bowels, Kidneys participate in the recuperative powers and regenerative operations of this great MEDICINE. To sick and feeble we advise a trial. A1

A few copies of the "Sack and Destruction of Columbia" can be obtained at the *Phoenix* office. Price twenty-five cents.

**HORSE THIEF ARRESTED.**—Dick Brown, alias John Williams, was overhauled by Chief Radcliffe, yesterday. The prisoner had in his possession a horse belonging to Mr. Joseph C. Harper, of Fairfield. The thief is in jail and the owner is on his way homeward, with his animal.

**VEGETATION IN RICHLAND.**—Mr. H. G. Heidt has presented us with a monster in the cabbage line—a white drum-head, two feet ten inches in circumference, and weighing eight pounds one ounce. It was grown on his farm. Mr. Heidt challenges comparison; but, at the same time, intimates that he can beat this specimen.

Mr. Spencer, who is planting in this County, has sent us an open cotton boll. The first we have seen. Who can beat it?

**MONTHLIES.**—The third (August) number of the *XIX Century* is out. The Confederate reminiscences are interesting—in fact, the entire work is well worth perusing.

The *Carolin Farmer*, for August, is before us, with an unusually interesting table of contents. The success of this truly home enterprise has been so encouraging that the proprietor announces his intention of converting it into a forty-column eight-page agricultural and family weekly, at the close of the present volume, (November 1,) giving twice as much agricultural matter per month as at present, besides a large quantity of choice family reading, and all the general news of the day. The subscription price will be only \$2. Address orders to Wm. H. Bernard, Editor and Proprietor, Wilmington, N. C.

Messrs. Bryan & McCarter have received the September number of *Peter's Ladies' National Magazine*. The fall fashions are a slight improvement on the queer styles prevalent during the past few months.

**HOTEL ARRIVALS.**—August 5.—*Columbia Hotel*.—J. W. Nichols, U. S. Paymaster; T. H. Symmes, H. C. Hudgins, Mrs. M. Kenedy, J. E. Thames, Charleston; Walter Muir, Philadelphia; Simon Fair, L. J. Jones, Newberry; C. G. Carlton, J. B. Dennis, New York; C. C. Bowen, Washington; L. W. Diehl, Sumter; E. DeBerry, A. McBee, S. C.; J. P. Caldwell, Baltimore; R. J. Devir, Helena; B. F. Alford, Greenville.
